The 20FT REFRIGERATED shipping container is used for transporting items that require temperature control. It is guaranteed to be water and weather tight to offer maximum protection for items stored. Used containers are typically 8-12 years old and may contain minor dents and surface rust.

**WEIGHT & DIMENSIONS**
- Exterior: 20'L x 8'W x 8'6"H
- Interior: 17'6"L x 7'6"W x 7'5"H
- Door Opening: 7'5"W x 7'3"H
- Forklift pockets: 14"W x 4"H
- Fork spread: 82"W center to center
- Weight: 6,880 LBS
- Payload: 60,320 LBS

**ALUMINUM EXTERIOR**
The reefer container is built with an aluminum exterior that is durable and insulated to withstand the Canadian climate and harsh conditions during marine travel.

**STAINLESS STEEL INTERIOR**
The interior of the container is built with food-grade stainless steel that is durable and easy to clean and maintain.

**FORKLIFT POCKETS**
Facilitate easy loading and unloading.

**CONDITION**
Used shipping containers are guaranteed to be water and weather tight to offer maximum protection for items stored. Used containers are typically 8-12 years old and may contain minor dents and surface rust.

**CONTAINER & PRE-TRIP INSPECTION**
Reefers undergo a thorough, 12-point inspection process to ensure the container's structural integrity. They are also inspected by an independent third party to verify the functionality of the refrigeration unit.

**WEIGHT & DIMENSIONS**
- Exterior: 20'L x 8'W x 8'6"H
- Interior: 17'6"L x 7'6"W x 7'5"H
- Door Opening: 7'5"W x 7'3"H
- Forklift pockets: 14"W x 4"H
- Fork spread: 82"W center to center
- Weight: 6,880 LBS
- Payload: 60,320 LBS

**REFRIGERATION UNIT**
- Model: Carrier ThinLINE or similar
- 460 volts, 3 phase, 15KVA
- 40 amps circuit requirement
- 10-12 running amps
- Temperature range: -25C to +25C
- R134A Freon
