

ALUMINUM EXTERIOR

The reefer container is built with an aluminum exterior that is durable and insulated to withstand the Canadian climate and harsh conditions during marine travel.

CONDITION

Used shipping containers are guaranteed to be water and weather tight to offer maximum protection for items stored. Used containers are typically 10-15 years old and may contain minor dents and surface rust.

STAINLESS STEEL INTERIOR

The interior of the container is built with food-grade stainless steel that is durable and easy to clean and maintain.

FORKLIFT POCKETS

Facilitate easy loading and unloading.

CONTAINER & PRE-TRIP INSPECTION

Reefers undergo a thorough, 12-point inspection process to ensure the container's structural integrity. They are also inspected by an independent third party to verify the functionality of the refrigeration unit.

REFRIGERATION UNIT

- Model: Carrier ThinLINE or similar
- 460 volts, 3 phase, 15KVA
- 30 amps circuit requirement
- Temperature range: -25C to +25C
- R134A Freon

WEIGHT & DIMENSIONS

Exterior: 20'L x 8'W x 8'6"H
 Interior: 17'6"L x 7'6"W x 7'5"H
 Door Opening: 7'5"W x 7'3"H

Forklift pockets: 14"W x 4"H
 Fork spread: 82"W center to center

Weight: 6,880 LBS
 Payload: 60,320 LBS
