

CORTEN STEEL

Known for its unique corrosion-resistant properties, Corten steel provides containers with long-lasting durability and resistance to the elements.

LIFTING POINTS

Easy-access lifting points make loading and unloading onto flatbed trucks easier.

SECURITY LOCK BOX

The lock box is a bolt-on security device that protects the padlock from bolt cutters and break-in attempts.

PAINT

The container's colour provides a professional, neutral appearance that allows it to blend easily into its surroundings.

2 x 7' L SERVICE WINDOWS

The two installed corrugated steel roll-up windows are each 7 ft long. They provide a quick and professional service solution for events. They are also lockable for added security.

WATERTIGHT VENTS

Help reduce heat and humidity while preventing condensation from forming.

FORKLIFT POCKETS

Facilitate easy loading and unloading.

LOCKING MECHANISM

The roll-up window features a locking mechanism to secure the opening. The padlock is not included with the rental.

POIDS & DIMENSIONS

Exterior: 20'L x 8'W x 8'6"H
Interior: 19'4"L x 7'8"W x 7'10"H
Door Opening: 7'8"W x 7'5"H

Forklift Pockets: 14"W x 4"H
Fork Spacing: 82"W

Roll-Up Windows: 7'W x 3'9"H

Weight: 4,820 lb
Payload Capacity: 62,380 lb

OPTIONAL ACCESSORIES

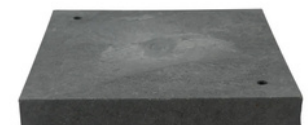

PADLOCK

STACKING PINS

ELECTRICAL ADAPTER

LEVELING PLATE

Steel Roll-Up Shutters

Above each opening, between the roll-up shutter and the ceiling, the mechanism requires a 12 in. x 12 in. space over a length of 7 ft.

Steel Shelf

A steel shelf is installed at the base of each roll-up shutter. Accessible only when the shutter is open, it provides a practical surface for serving customers, displaying products, or taking orders directly at the counter.

Keruing-Apitong Wood Plywood

Marine-grade plywood with 19 plies and a thickness of 1.1 in. (28 mm). It can support a payload of up to 62,380 lb and is treated to resist spills and other contaminants.
